

Building a Healthier Gwent

Wide health inequalities still persist in Gwent. I would like to have a conversation with the people who live and work in Gwent about what achieving the ambition of **Building a Healthier Gwent** would mean for them. Through our conversation I hope we will develop a shared ambition and commitment that together we can **Build A Healthier Gwent**.

% of life spent in 'good' health

Source: Public Health Wales

To create an environment that promotes the health and wellbeing of the whole population of Gwent we all need to play our part.

THE AMBITION FOR GWENT 2030

In 2030 the places where we live, work, learn and play make it easier for people in our communities to live healthy, fulfilled lives.

All our children and young people live in smoke free environments and consider not smoking to be the norm. More of our children and young people live in an environment that supports being a healthy weight. We have vibrant, connected communities with people preferring to walk and cycle for local journeys. Families and children are active in our shared open spaces and getting the most out of our abundant, natural environment.

We live, learn and work in strong and mutually supportive, resilient communities - both real and virtual. We are taking concerted action to improve mental wellbeing because we understand that there is no health without good mental health.

All partners are focussing their collective efforts on the main things that create greater equity, and we are starting to see greater equity in the determinants of health. **Building A Healthier Gwent** is at the heart of what we all do.

The Director of Public Health Annual Report (2019) '**Building a Healthier Gwent**' sets out the ambition and the key health challenges we need to address for a healthier Gwent by 2030.

THE CHALLENGE

People in some communities in Gwent live more of their life in good health and live longer than in other communities in Gwent.

Major diseases that cause people not to be in good health include cardiovascular diseases, cancers and respiratory diseases.

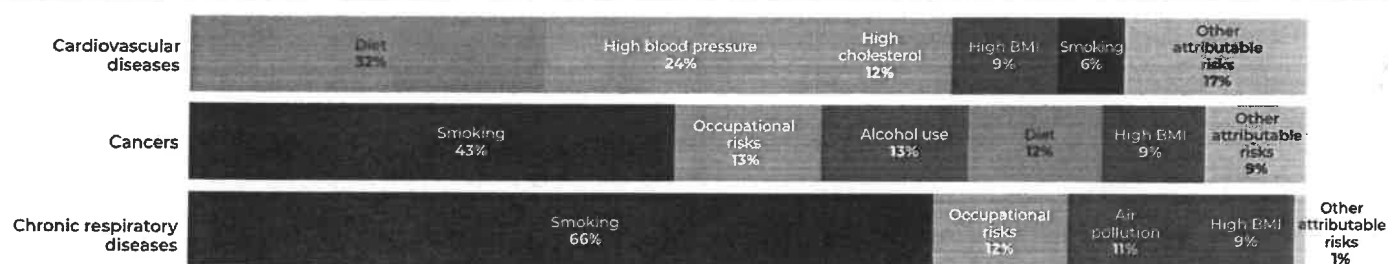

The development of a large percentage of these diseases can be attributed to risk factors that are preventable, and explain the major part of the health differences we see across the population of Gwent.

Percentage of ill health that can be related to risk factors

Source: adapted from Public Health Wales Observatory, using Global Health Data Exchange (IHME)

Percentage contribution of risk factors to three major illnesses

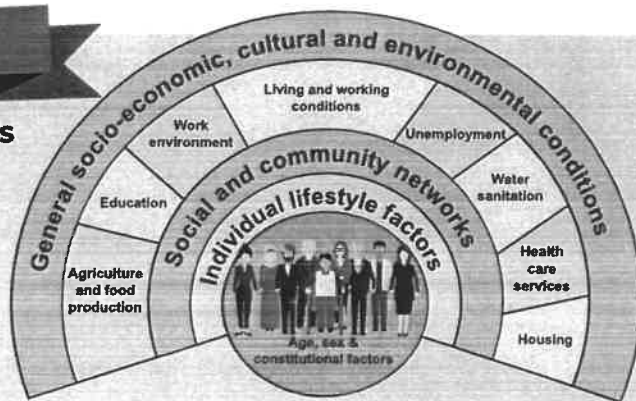

Source: Public Health Wales Observatory, using Global Health Data Exchange (IHME)

WE CAN DO IT!

A wide range of factors influence an individual's health including the social, economic and physical environment.

Building a Healthier Gwent has 3 themes:

- Healthy homes, places and spaces
- Healthy communities
- Health promoting services

Source: adapted from Dahlgren and Whitehead, 1991

GET INVOLVED!

Please join the conversation about how we can Build a Healthier Gwent together.

Attend one of the public and partner engagement events taking place across Gwent between August and October 2019.

OR Complete the online survey by October 20th.

Good morning

I can confirm that the consent has now been issued.

The applicant received permission from the Welsh Government to use this part of the road near Garnlydan as it is a picnic area, he has also been granted consent from Planning, therefore no issues was raised and the consent granted.

Kind regards

Michele

Good morning Michelle,

Nantyglo and Blaina Town Council would like to make the following representations in respect of:

- Steve Smith (applicant), 66 Lakeside Way, Nantyglo
- Application for a Permanent Street Trading Consent for a mobile unit
- Rest Bay A465, Heads of the Valley, Ebbw Vale
- Can you inform of the exact location of the proposed unit?
- There are concerns as to road safety and the legality of such a unit if it is located on a clearway

Kind regards

*****Hate Crime Awareness Week - West Gwent
Community ProjectFunding Application*****

From: David.Arnold@blaenau-gwent.gov.uk

Sent: Wed, 11 Sep, 2019 at 16:02

To:

Cc: christopher.hunt@torfaen.gov.uk,
Michael.Morgan@torfaen.gov.uk

HCAW Application.docx (397.7 KB)

**Blind copied to multiple recipients on behalf of the Community
Cohesion Coordinator (West Gwent)**

Dear Partner

This year National Hate Crime Awareness Week (HCAW) takes place from **12th – 19th October 2019**, and is an opportunity to raise awareness of what hate crime is and stand by those affected by it. National Hate Crime Awareness Week encourages us to consider how we can respond to hate crime when we witness or are victims to it. This can help to ensure people report instances of hate crime and to ensure victims get the support they need.

We are calling on you to help. This year West Gwent Local Authorities (**Caerphilly, Torfaen, Blaenau Gwent**) are keen to explore new ways to support awareness raising and how we promote positive messages of inclusion and diversity and we are encouraging community groups/ partners to bid for up to £500 (per project application) to deliver projects (**in West Gwent**) that support awareness raising of hate crime and/or help foster good relations between communities.

Previous HCAW projects have included:

- A youth club activity exploring food and the different cuisines that bring communities together
- Arts and Crafts activities raising awareness on hate crime reporting
- An externally commissioned social media campaign and animation
- A public engagement event aimed at challenging negative perceptions of asylum seekers and refugees coming to Gwent
- A community football tournament and cultural celebration to support cohesion and integration

If you would like to bid for funding to deliver a project which helps promote the key messages of Hate crime awareness and/or helps to bring communities together to celebrate diversity and promote community cohesion then please complete the attached application form.

Please send your completed application form via email to: michael.morgan@torfaen.gov.uk no later than 5pm on Saturday 28th September 2019.

If you have any queries or what like to discuss this further please do not hesitate to get in touch

- No £100 Administration Fee if you change details (i.e. Name & Address of billing/machine/location etc.)
- Guaranteed Contractual maximum 4 working hour's service response.
- No fee to collect equipment at end of rental, typically approximately £280.00.
- Free collection/recycling of used toner cartridges and consumables

SERVICE

RESPONSIVE SERVICE

Here at Konica Minolta we pride ourselves on the quality of our after sales service. We provide a comprehensive maintenance service for all standalone and networked equipment we supply, ensuring that your machines deliver maximum performance and uptimes with trouble free and continuous use.

The following is included in the service cost (i.e. the cost-per-copy / click rate):

- Delivery, installation and connection to the network
- Hardware user training, as defined within the agreed proposed scope
- Parts, toner, staples and other consumables (excluding paper)
- Agreed KPIs / SLAs, including an average onsite response time of 4 hours (2 hours for very-high-volume Production Print Devices)
- Preventative maintenance visits
- Breakdown maintenance – all service defect call outs and labour costs
- Maintenance for any free-of-charge software
- Free firmware upgrades
- Hotline telephone support, with remote and network support

Our force of over 270 highly-trained field service engineers are strategically located, and the total number of engineers is decided based upon a number of important factors including total Machines in Field, model profile, print/copy volume, equipment density and the geographic nature of the region. Taking due consideration of all these factors, Konica Minolta decides upon the number of engineers needed to meet its existing and future contractual obligations.

Our Service Scheduling system automatically selects the right engineer for the job, taking into consideration such things as which engineer has the skills to fix a specific problem, the distance that the engineer will need to travel to get to the job, and what parts the engineer will need to have on hand.

To allow us to assess the criticality of the call we communicate directly with the site, check machine history and volume/usage, and in the first instance we would deploy the services of the help desk (if appropriate) followed by a site visit to repair.

Our standard engineer onsite support operating hours are 09.00 to 17.30 Monday to Friday (excluding UK and Scottish Public Bank Holidays). Once a service request has been logged, our automated call scheduling system delivers client calls according to their contracted SLA requirements directly to our local Technicians who are fully trained and equipped to deal with the specific requirement.

Proposal –

Not New Olivetti MF452 digital colour solution with –

******* 80 pages per minute colour scanning !!!!!**

100 page document feeder

Banner printing as well as A4 + A3

USB / memory stick plug in

Good Afternoon Tracy

Firstly thank you for giving me the time to visit this morning is was nice to meet yourself at the office .

If you can confirm the following when possible as we discussed and I will get the costs back to you ASAP when I return from holiday .

- The amount of features to be mounted onto the columns
- The locations of the streets in Nantyglow and Blaina where these are
- If there was any other equipment that was to be installed and where this may be if there is

I've had a few ideas of extra works for the areas after having a quick drive through but this is something we can look at later if everything is fine and we start working with yourselves .

As I mentioned if you did not have the facility for storage etc ... storage of the items would be included in our costs as well as the testing of the items prior to being installed

The only additional costs would be if there was any additional work that may be required but I would discuss this with you PRIOR to any work being done to confirmed your acceptance you would be happy . However any additional work we would be more than happy to split the cost of this also over a 3 year period to make budgets easier for yourselves .

Once again thank you for your time and I look forward to hearing from you

Good Morning Tracy

My apologies for the delay in the reply with the quote for you but I have enclosed some details .

I have tried to list everything as clearly as possible for you , there are a couple of places I would need to re-visit which I would be happy to do whenever possible for you as I would need to speak to someone with regards how you install and where on the buildings etc ... at present , but I hope the quote will indicate the details needed .

As the installation would be into existing places you currently light I have listed the costs to indicate all the power sockets etc ... are all ready to be used . My guys would test the sockets as they would install and small repairs they would just complete if required FOC . If there was anything more required we would get confirmation from you prior to any work taking place

The costs also include storage and testing of the lights for you .

I sincerely hope the enclosed is of help and if this is of assistance I can then arrange to re-visit at a time to suit yourself to go through the last few locations and try some ideas as you mentioned for another location in Nantyglo . If there is however any more information you need please let me know .

Good afternoon Phil,

It was good to speak to you earlier in respect of the Christmas Lights.

I've attempted to gather as much information as possible but it may be a little sketchy but I hope it will provide a starting point. I have also provided the identical information to Centregreat so it will ensure that the quotes can be compared like for like.

Please note that Nantyglo and Blaina Town Council already own the Christmas Lights so the quote required is for the putting up, taking down and testing of the lights.

Blaina:

- cable LED lights on Blaina Institute, High Street.
- 1 x 10 foot Christmas tree on Blaina Institute, High Street.
- LED cable lights on trees outside ICC Building (former infants school) High Street
- approximately 16 x column lights in High Street
- small lengths of LED cable or older style bulbs in small individual Christmas trees above shop fronts in High Street (approx 10)

Nantyglo:

- approximately 8 x column lights along New Road
- LED lights and older style festoon bulb lengths on Wesley Church, Chapel Road
- LED lights in trees outside Nantyglo Pensioners Hall (opposite Wesley Church) Chapel Road
- 1 x 10 foot Christmas Tree with lights in on St Anne's Church, Nantyglo
- LED cable lights on large Christmas Tree (approx 20 foot - already in situ) on King Street

Many thanks Phil and please do not hesitate to contact me if you require any further information or clarification.

Kind regards

Tracy

Dear fellow Councillors,

We share with you a short youtube video of the recording of Building Musical Bridges celebration which we had on the 20th of July celebrating the Bicentenary of the Birth of The Báb;

<https://youtu.be/BRf4oFyhWj0>

There were thirty-two singers and dancers and about 120 guests, including Des & Carole, the Police & Crime Commissioner of Gwent and the Chief Constable of Gwent Police.

This celebration was organized by the Bahá'í Group of Blaina/Nantyglo (smallest Faith Community in Blaenau Gwent), it was a gathering of mainly local people getting on with each other, and what a wonderful way to bring people together in the spirit of love and unity through using the power of music and song?

Bahá'ís and their friends all over the world are trying to put one of the writings of Bahá'u'lláh into action;

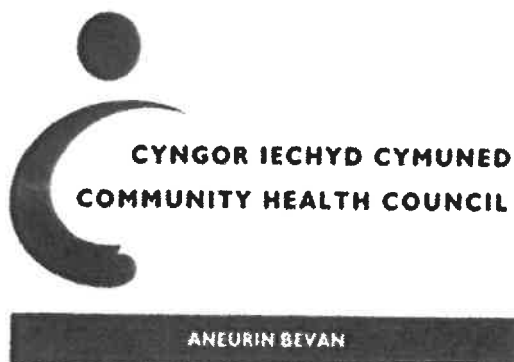

"The betterment of the world can be accomplished through pure and goodly deeds, through commendable and seemly conduct."

It is only when people understand that we all belong to the same human race, and we start working together that we are able to advance toward peaceful societies.

The recording & editing of the celebration was done free of charge by Cymru Creations/Tredegar a local film & media company and for their efforts we are very grateful. Also grateful to Asda/Brynmawr which contributed some of the food/drinks and flowers.

Many guests brought item(s) of food as a contribution to the local food bank.

Best wishes,
Rafi

Update for Town and Community Councils on Civil Parking Enforcement

Introduction

Caerphilly CBC is providing two Civil Enforcement Officers as part of a Service Level Agreement with Blaenau Gwent CBC. Both officers live out of county. In the interest of discretion and officer safety, it is advised that we keep their names private and refer to them by their identification numbers which are ZB01 and ZB02.

Training & Welfare

Both officers have successfully completed the City & Guilds Level 2 Parking Enforcement Officer training.

The officers' main base will be at Tredomen House, Ystrad Mynach, Caerphilly. However, when they are patrolling in Blaenau Gwent, they will be given ID badges to access the Civic Centre, Ebbw Vale and the Energy Centre on The Works Site.

CPE Commencement Date

Enforcement commenced on Tuesday 10th September 2019.

Shift Pattern

The officers are currently employed on a part time basis and will each work 26 hours per week. Each officer will work four days per week (initially each working on the same day at the same time).

There is currently no provision for Sunday or Bank Holiday parking enforcement.

Patrol Times

The patrol times are currently planned between 9:30 am and 4 pm - it is believed it is between these times that most of traffic contraventions near sensitive areas (school sites and town centres) will take place. From observations during the fair warning period and reports made by members of the public, parking problems are worse at school sites in the afternoon (when parents/guardians are picking children up from school) therefore, we want to ensure that the patrol times cover the school pick up time, which is typically between 2:15pm and 3:30pm.

However, the officers are contracted to work between 7 am and 10 pm, and therefore, the shift times may change if there is a known parking problem outside of 9:30 am and 4pm, particularly in residential areas where we have received many reports of parking contraventions.

Shift patterns and patrol times will be subject to review and will be modified as necessary to ensure an effective enforcement service is provided.

Parking Charge Notices and Administration of Penalties

The back office administration will be managed by Rhondda Cynon Taff CBC as part of a service level agreement with Blaenau Gwent CBC. All appeals will be managed through the South Wales Parking Group (SWPG), which is also based at RCTCBC. Any queries in relation to an issued PCN must be made through the SWPG, whose contact details can be found on the back of the ticket and on Blaenau Gwent's webpage at the following address: <https://www.blaenau-gwent.gov.uk/en/resident/civil-parking-enforcement/>

Reporting Parking Offences

Anyone who wishes to report parking problems can email the BGCBC CPE Team at the following email address: CPE.bgcbbc@blaenau-gwent.gov.uk and we can ensure areas are patrolled when officers are next in the area. No photographic evidence or vehicle registration is required, just a brief description of the offence (i.e. parking on double yellow lines) and the street name and town.
